

MATTHEW SOTOUDEH

masotoudeh@ucdavis.edu · (408) 832-5833 · <https://matthewsot.github.io/>

EDUCATION

University of California, Davis
BS Computer Science, Regents Scholar

Davis, CA
Grad: Jun 2021

Lynbrook High School
GPA: 3.9

San Jose, CA
Grad: Jun 2017

EXPERIENCE

Intel Labs
Research Intern

Santa Clara, CA
Jul 2016 — Present

- Developed state-of-the-art ML parameter compression method. Up to 60% accuracy improvement over existing work after compressing models up to 1000×
- Optimized compressed matrix-multiplication routine achieves 15× faster inference than MKL.
- Wrote a unified library that simplifies implementation of multiple compression methods in TensorFlow by expressing each method as a weight-generating sub-graph.
- “DeepThin: A Self-Compressing Library for Deep Neural Networks” Submitted for Publication, PLDI 2018.

Develop Summer Academy
Co-Founder & Instructor

San Jose, CA
Feb 2016 — Present

- Taught over 50 local middle school students programming, leadership, and other life skills
- Developed courses, marketed the camp, handled logistics, and taught classes
- Recognized by our school, district, and House Representative Ro Khanna
- Over \$30,000 in revenue over two summers.

Action
Co-Founder & Chief Software Engineer

San Jose, CA
Nov 2014 — Jan 2016

- Built product used to improve the meeting follow-up experience for 1,000s of meetings and people around the world.
- Used by teams at Google, Microsoft, and UC Berkeley.

SKILLS

Programming Languages: C, C++, C#, Python, Javascript, HTML, CSS
Other: Education, course development

PROJECTS

Docs Plus *Javascript, jQuery, Chrome and Firefox add-on APIs*

<https://github.com/matthewsot/docs-plus>

Only add-on library that enables deep integration support with the Google Kix editor

SharpSwift *C#, Swift, Roslyn*

<https://github.com/matthewsot/sharpswift>

C# - Swift transpiler that was one of the first projects to use the Roslyn Compiler API and Swift language

More projects can be found at <https://github.com/matthewsot>

RECOGNITION

Rep. Ro Khanna Congretional Award

Recognized by House Representative Ro Khanna for my role in founding the innovative Develop Summer Academy.

1st Place FBLA State & National Competitions

Won first place against hundreds of teams across the country for two e-business websites I built and presented. Jun 2014, Apr 2015

1st Place Application at CodeDay SV

An early version of our meeting efficiency add-on Action beat dozens of other teams at the CodeDay SV hackathon Oct 2014
